LEAK SCANNER

DIME'S MONEY QUEST

Find where your money drips away. 7 days. Free.

WHY LEAKS?

Most money isn't lost in one big buy. It drips. A coffee here, a delivery fee there, an app you forgot. Each one feels too small to matter. Together they are why the money is gone by day 20.

€8 here, €8 there = €240 a month = €2,880 a year. *(example numbers)*

HOW TO SCAN

1. Days 1-7: log every spend in the spreadsheet tab '7-Day Log'. Even €1. Card, cash and apps.
2. For each spend pick a leak type and answer one question honestly: did I need this? Yes or No.
3. Day 7: open 'Scan Results'. You see every leak per month and per year, and your biggest one.
4. Bonus: list your subscriptions in 'Subscription Scan'. Not used in 30+ days = cancel candidate.

THE 8 LEAKS TO WATCH

- **Snacks & coffee**
  drinks to go, bakery stops, vending machines
- **Rides & transport**
  short rides you could have walked
- **Shopping & impulse**
  sale emails, 'just because' carts
- **Fees & interest**
  account fees, late fees, overdraft
- **Takeout & delivery**
  delivery fees, 'too tired to cook' dinners
- **Subscriptions & apps**
  streaming, in-app buys, trials that turned paid
- **Going out**
  rounds, entry fees, late-night food
- **Other**
  anything that keeps showing up

PLUG PLAN: PICK ONE POWER-UP

Subscriptions	Cancel anything you haven't opened in 30 days.
Takeout	Swap 2 of 4 orders a week for a €5 home meal.
Impulse buys	Wait 48 hours before buying. Unsubscribe from 5 shop emails.
Snacks & coffee	Bring your own 3 days a week.
Fees	Check what your account costs; switch to a free one.
Rides	Walk anything under 15 minutes.

One leak, one power-up, this week. Scan again next month and watch your yearly number change.
